### **Sales Associate (Job code: SA-2600)**

#### **Job Description:**

As a Sales Associate at **Prisma**, you will play a key role in bridging the gap between our PCB assembly & cables/ harness fabrication capabilities and our customers' needs.

- Your primary responsibility will be to develop and maintain strong client relationships while understanding their technical requirements and translating them into customized solutions.
- Establish and develop relationships with existing and potential customers by understanding their needs and providing technical expertise on Prisma's PCB assembly and cables/harness fabrication capabilities
- Prepare detailed proposals based on customer specifications, providing clear explanations of the technical aspects involved.
- Contribute to the achievement of sales targets by actively seeking new business opportunities and expanding the customer

#### **Requirements:**

- Bachelor's Degree Diploma in Engineering or Business Administration or related field (Electrical Engineering, Electronics, Marketing, Sales, etc.)
- Willing to travel overseas for work assignment (for EXPO's, clients, etc.)
- Excellent communication and interpersonal skills (Greek and English)

### **Additional requirements:**

- Experience in technical sales, preferably in the PCB assembly and cables/harness manufacturing industry

### **What we offer:**

- Competitive remuneration package
- High standard working environment
- Cooperation with International Companies & Executives
- Ongoing training
- Opportunities for career development
- Private Health Insurance
